

Product Capabilities

Customized solutions with exceptional customer care

Injection Molding

Single and double-shot injection molding, in-mold decorating, over-molding, insert molding, and SLA (prototyping)

Metal Parts

Cabinets, casings, enclosures, fittings, frames, hinges, housings, mounts, racks, sockets, springs

Controls

Switches, buttons, keyboards, joysticks, remotes, wearables, handles, pendants, rubberization, IP67 ratings

Specialty Switches

Capacitive switches, membrane switches, backlighting and light guides, rugged switches (piezo)

Electronic Devices

Final assembly, functional testing, industrial, medical, and consumer HMI's

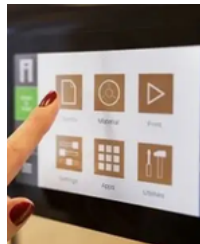

Circuitry

PCBA, printed electronics (chemical or laser-etched traces), custom automation / semiautomation

Overlays & Panels

Finishes, decorative textures, metallic color effects, color matching with full-service color lab

Touch Screens

Capacitive, multi-touch, and resistive touch screens, software design, glass, plastics coatings, cover lenses

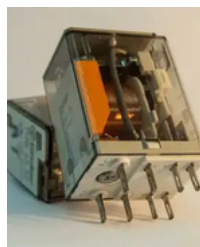

Active Components

Amplifiers, diodes, IC's, MOSFETS, power supply (batteries, DC generators), rectifiers, transistors, tube devices

Connection Components

Adapters, PCBs, connecting cables, connectors, receptacles, sockets

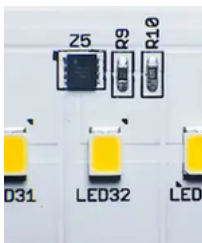

Electromechanical

Electric motors, alternators, converters, switches, relays, sensors

Power Management

Batteries, circuit breakers, fuses, inverters, power supplies, surge protectors, thermistors, transformers

Optoelectronics

Backlighting components, displays, fiber optics, LEDs and associated components (drivers, heat sinks, lighting cables, lenses, power supplies, strip and tape lighting, light pipe)

Passive Elements

Antennas, capacitors, chokes, coils, filters, fuses, inductors, magnetic amplifiers/toroids, motors and generators, resistors, thermistors, transformers, varistors
